SUMMARY

Senior Unity Developer with 6 years of experience with experience of working on Virtual Reality, multiplayer SDKs such as Photon PUN2 and Photon Quantum, REST APIs, Socket programming using Node.js and developing backend systems with PHP CodeIgniter, Firebase, 2D and 3D animations, and sprite sheets. Launched games successfully on cross-platform devices, including Android (Google Play Store), iOS (App Store), and Oculus Store.

KEY SKILLS

- | | | | |
|------------|-------------|-------------------|------------------|
| • Unity 3D | • Socket.IO | • Virtual Reality | • Mixed Reality |
| • Firebase | • REST APIs | • Photon PUN2 | • Photon Quantum |
| • Node.js | • ECS DOTS | • Php CodeIgniter | |

Secondary Skills – Adobe Photoshop, Blender, HTML, CSS, JS

EXPERIENCE

Higroove Systems | Unity Developer | December 2019 – June 2021

- Developed the back end for multiplayer integration using Socket.IO with Node.js.
- Created multiplayer backend for matchmaking, room creation and player synchronization.
- Successfully implemented this for Ludo and Chess games in Unity, ensuring seamless multiplayer functionality.

OTS Solutions Pvt. Ltd. | AR/VR Developer | June 2021 – January 2022

- Created Virtual Reality simulations using the client-provided framework.
- Handled Client interactions with various teams including tech, artists and management.

VisualEz Technologies Pvt. Ltd. | Unity Developer | January 2022 – December 2022

- Developed 3D software for tile retailers and customers to visualize tile patterns.
- Used Asset bundles to download pre-designed rooms by 3D artist
- Created “Custom Room” feature enabling user to design rooms, place objects, and apply tiles in 2D and 3D.
- Managed a team of developers and tech artist, overseeing the development process and coordinating with sales and marketing team to address user issues and market needs.

iXR Learning Solutions Pvt. Ltd. | Senior Unity Developer | December 2022 – May 2024

- Developed learning modules in Virtual Reality for higher education.
- Built the Wrapper App, including downloading addressable, loading and unloading addressable bundle scenes, and managing quiz scores.
- Developed a framework for the development team to streamline module creation.
- Won Kudos of the *Quarter* and *Standout Player of the Year* award.

Global Grand Gaming Pvt. Ltd. | Senior Unity Developer | June 2024 – Dec 2024

- Creating Apps for Web, Android and iOS platform using Photon Quantum

Six Red Marbles | Senior Unity Developer (Contract based Role) | Feb 2025 – Mar 2025

Created Virtual Reality simulations using the client-provided framework

Aristocrat Leisure Limited | Senior Engineer 2 | April 2025 – Jan 2026

- Developed Slot games end to end independently, managing, planning, execution and delivery.
- Handled team communication and coordination among team members to meet project goals.
